

# The Boeing Company Grant Opportunity with SystemsGo

## Exclusively for the following Counties:

**Collin, Dallas, Denton, Ellis, Hood, Johnson, Kaufman, Parker, Rockwall, Tarrant and Wise  
School Year 2018 – 2019**

SystemsGo is a recipient of The Boeing Company grant because our curriculum so closely maps to Boeing’s giving goals of “Bridging the gaps through community investments in STEM and 21<sup>st</sup> Century Skills.” SystemsGo, in addition to being a high interest STEM program, is aligned to TEKS and NGSS and intentionally trains 21<sup>st</sup> Century skills, as defined by the Partnership for 21<sup>st</sup> Century Learning Framework.

The Boeing Company grant will offset the standard curriculum licensing fees and teacher training fees by 50% over two years as the program gets fully implemented beginning with the 2018-2019 school year. Overview for 2-year full program implementation are as follows:
