SystemsGo is a recipient of a grant from The Boeing Company because our curriculum continues to bridge the gap between STEM and 21st Century Skills. SystemsGo, in addition to being a high interest STEM program, is aligned to TEKS and NGSS and intentionally trains 21st Century skills, as defined by the Partnership for 21st Century Learning Framework. The Boeing Company Grant will offset the standard curriculum licensing fees and teacher training fees by 50% over two years as the program gets fully implemented beginning with the 2019-2020 school year. Overview for 2-year full program implementation are as follows:

| Year 1 | | Year 2 | |
|---|-----------------------|--|--------------------------|
| <u>Annual Licensing Fees Payable to SystemsGo</u> | | <u>Annual Licensing Fees Payable to SystemsGo</u> | |
